

¹Substances are considered persistent, bioaccumulative and toxic (PBT) if they fulfil the criteria defined in Sections 1.1.1–1.1.3 of Annex XIII to the REACH Regulation.

Substances are considered very persistent and very bioaccumulative (vPvB) if they fulfil the criteria defined in Sections 1.2.1 and 1.2.2 of Annex XIII to the REACH Regulation.

²Monomers must be notified if they are placed on the market as such or in the form of a polymer but are not registered in the EU or are registered in a smaller quantity category. Monomers are exempt from the obligation to register if they are registered in the EU in the same or a higher quantity category (status "active", as "INTERMEDIATE", "FULL" or "NONS").

³Art. 26 para. 1 let. a ChemO exempts polymers as well as substances that are contained as monomer units or chemically bound to the polymer in a concentration of less than 2 percent by weight from the obligation to notify.
